

Sessions section on the homepage

Please copy this design exactly: layout, spacing, fonts, colours and texts as shown below. Part of Phase 1 of the Sessions briefing.

01 · DESIGN

Desktop

02 · PLACEMENT

Where it goes

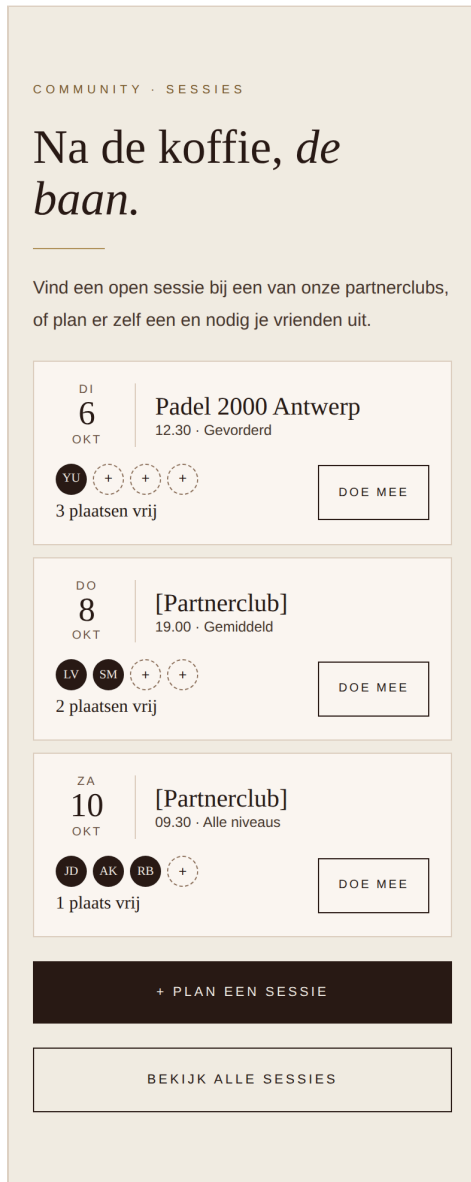

On the homepage, directly after the "Ons verhaal" block and before the Founding Circle register section. Full width, background Warm Ivory #F3EBE3.

03 · BEHAVIOUR

How it works

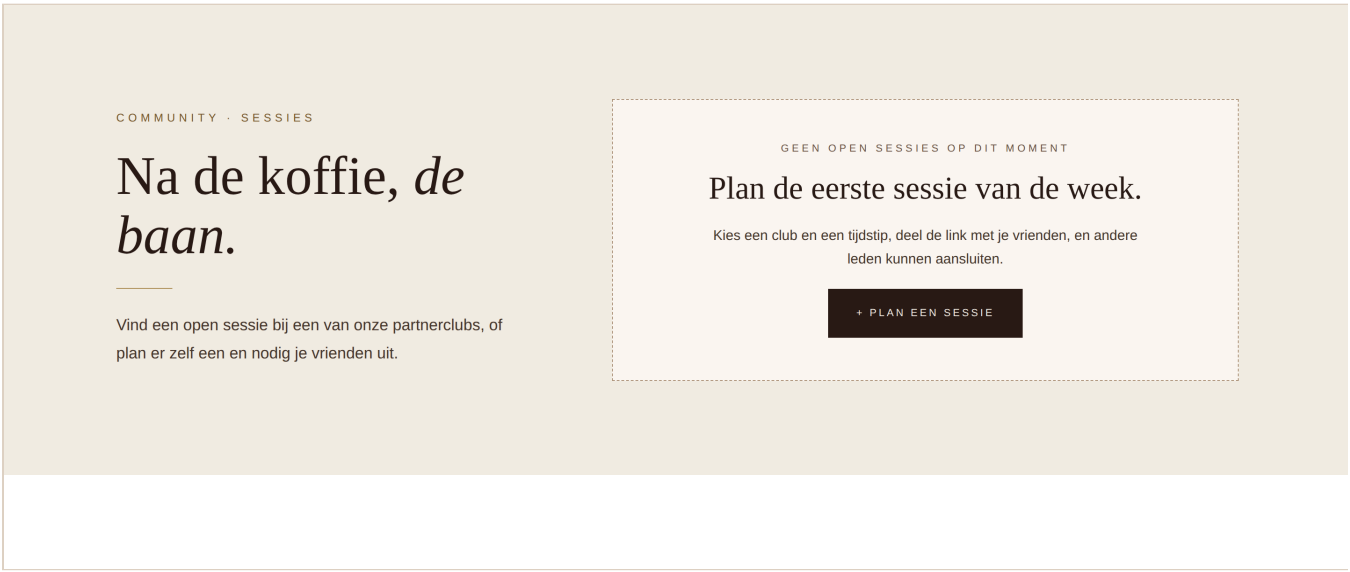

- Sessions shown: the next 3 upcoming open sessions (in the future, not full), sorted by date and time.
- Counter: number of open sessions in the coming 7 days.
- Players: filled circles with initials for joined players, dashed circles with "+" for free places (4 places per session).
- "Doe mee": logged-in members join directly, exactly as on the Sessions page; the card then shows "Je speelt mee ✓" (filled button) and the free places update. Not logged in: go to login, then back to the homepage section.
- Card click: opens the session detail page.
- "Plan een sessie": opens the create-session flow (login first if needed). "Bekijk alle sessies": opens Community → Sessions.
- Privacy: visitors who are not logged in see initials only, never full names.
- No open sessions: show the empty state (section 05) instead of an empty list.
- Data: club names, dates and initials come from the real sessions; the names in the design are examples.

Mobile

- Single column; text, then the 3 session cards, then both buttons full width.
- Date block on the left of each card, club and time on the right, players and "Doe mee" below.
- All buttons at least 44 px high.

Empty state (no open sessions)

Colours and typography

- Background Warm Ivory #F3EBE3; cards #FBF8F4 with 1 px border #DDD0C2; text Deep Chocolate #291C18; secondary text #4A3A30 / #6E5646; eyebrow #7A5C2E; gold line #B2915C; dashed free places #8D705A.
- Titles, club names, dates and initials: Baskerville. All other text and buttons: Montserrat (labels uppercase with wide letter-spacing).
- Desktop: section padding 110 px top/bottom, 120 px sides; 90 px between text column (440 px) and cards; 14 px between cards.
