Customer returns

MAISON ANVERSA

Goal. Customers must be able to request a return themselves, from their account, within the legal 14-day period. Today the only route is the contact page. This briefing describes the customer flow, the admin flow, the link with the Founding Circle Register, and all texts in NL / EN / FR.

1 · Where

PLACE	WHAT
My account → Orders	Each eligible order shows a RETURN ITEMS button (or CANCEL ORDER before shipping).
/returns /nl/retour · /fr/retours	Short policy summary + START A RETURN. Logged in → goes to Orders. Not logged in → login. If guest checkout exists: order number + email → we email a secure one-time link to the return form.
Order confirmation & delivery email	Add one line + link: "Changed your mind? You can return within 14 days via your account."
Admin → Returns	New menu item with list, filters and actions (page 3).

2 · Rules (Belgian / EU law + our policy)

- **Withdrawal period:** 14 days, starting the day after delivery. The customer must **request** within 14 days, then has a further 14 days to **send** the item.
- **No reason required.** The reason field is optional.
- **Return shipping** is paid by the customer (already stated in our policy). Exception: an item that arrived **damaged or defective**, where we pay.
- **Refund** within 14 days of the request, via the original payment method (Stripe). We may wait until the item is received, or until the customer shows proof of shipping.
- **Original standard shipping cost** is refunded when the **whole order** is returned. Not for a partial return, and never the extra for express.
- **Loss in value** (used, damaged, incomplete): admin may deduct an amount, with a written reason.
- The online form counts as the legal withdrawal statement. The confirmation email (R1) is the legally required acknowledgement, so it must always be sent.

Customer flow

MAISON ANVERSA

3 · When is the button shown?

ORDER STATE	SHOWN IN ORDERS
Paid, not yet shipped	CANCEL ORDER → full refund, no return needed
Shipped / delivered, within delivery date + 14 days	RETURN ITEMS + "Return possible until [date]"
Return already requested	Return status + return number (e.g. MA-R-0007) + ADD TRACKING
Period ended	"The return period for this order has ended." + link "A problem with your product? Contact us" (legal 2-year guarantee)

Delivery date: same source as the register (carrier status → manual date in admin → fallback shipping date + 5 days). Admin can extend the deadline for one order.

4 · Steps

#	SCREEN	CONTENT
1	Select items	Checkbox per order line + quantity. Founding Edition racket: one line, quantity 1. A note shows: "Please return everything that came with it: box, Heritage Passport, cards and accessories."
2	Reason (optional)	Dropdown: Not what I expected · Wrong item ordered · Arrived damaged or defective · Other · Prefer not to say. Optional comment. If "damaged or defective": photo upload (max 3) + text "We'll contact you about return shipping at our cost."
3	Summary	Items, expected refund amount, return address, "Return shipping is at your cost", checkbox "I confirm I want to return these items". Button CONFIRM RETURN
4	Confirmation	Return number, instructions, address, deadline to send (request date + 14 days). Email R1 is sent.
5	Tracking (optional)	Customer adds carrier + tracking number → status "In transit".

Several returns per order are allowed for items not yet returned. **Sets** (e.g. racket + bag, later): items can be returned separately. The refund is the item's share of the set price, in proportion to the separate prices.

Admin flow

MAISON ANVERSA

5 · Return statuses

STATUS	SET BY · MEANING
REQUESTED	Customer · form submitted
IN TRANSIT	Customer (tracking added) or admin
RECEIVED	Admin · parcel arrived → email R2
REFUNDED	Admin · full refund via Stripe → email R3
PARTIALLY REFUNDED	Admin · amount + reason → email R4
DECLINED	Admin · reason required (e.g. not received after 30 days) → email R4
CANCELLED	Customer or admin · return withdrawn

6 · Admin → Returns

- List: return number, order, customer, items, status, request date, **refund due by** (request + 14 days, shown in red when within 3 days).
- Detail page buttons: MARK RECEIVED | REFUND IN FULL | PARTIAL REFUND | DECLINE | ADD NOTE
- Refund buttons call the **Stripe Refund API** on the original payment, and store the refund ID and amount. Partial: admin enters the amount and a reason (shown to the customer).
- Refund amount is pre-filled: items paid + original standard shipping if the whole order is returned. Admin can adjust.
- Log of every status change: who and when.

7 · Link with the Founding Circle Register

EVENT	REGISTER STATUS OF THE NUMBER
Return requested (racket)	→ RETURNING (public: "Reserved")
Refunded / partially refunded	→ AVAILABLE · name removed
Declined or cancelled	→ back to RESERVED (or Inscribed if the period has passed)
Order cancelled before shipping	→ AVAILABLE

This replaces the manual "Mark as returning" step from the Register briefing; the manual buttons stay available for exceptions.

8 · Notifications for Yusuf

- Email + admin badge on every new return request (A1).
- Daily summary if a refund is due within 3 days, or a request has had no update for 7 days.

Acceptance tests

MAISON ANVERSA

Please run these on staging before the milestone is delivered.

- Order not shipped → "Cancel order" → Stripe refund, number back to Available.
- Delivered 3 days ago → "Return items" visible with correct deadline; day 15 → button gone, period-ended text shown.
- Full flow racket: request → R1 + A1 sent, register "Returning" → tracking added → received (R2) → full refund (R3), number Available, name gone.
- Partial refund with reason → R4 with correct amounts; Stripe shows the partial refund.
- Declined → R4, number back to Reserved.
- Second return on the same order for remaining items works; returned items can't be selected again.
- All screens and emails correct in NL, EN and FR; return link in order confirmation email works.
