MAISON ANVERSA

Shareable match card

Please copy this design exactly: layout, fonts, colours and all texts as shown. Texts for NL / EN / FR are in section 05, ready to copy. To be added to Phase 2 of the Sessions briefing, together with the session conversation.

01 · GOAL

Every session becomes a shareable moment

After each session, every player receives a beautifully designed image of the session in the Maison Anversa style, ready to share on Instagram Stories, WhatsApp or other apps. Each shared card shows maisonanversa.com and brings new visitors to the platform.

02 · DESIGN

Story 9:16 · Story with result · Post 4:5

Formats: Story 1080 × 1920 px (dark, Deep Chocolate) and Post 1080 × 1350 px (Warm Ivory). Player names in the design are placeholders.

03 · BEHAVIOUR

How it works

- When: the card is generated automatically when the session's end time has passed (only for sessions with at least 2 players).
- Notification: all players receive an in-app notification and an email ("Je wedstrijdkaart is klaar") with buttons "Deel je kaart" and "Download".
- Result (optional): the organiser can add the score on the session page after the session. If a score is added, the card is regenerated with the result (see middle design). If empty, the card is shown without result.
- Content: Maison Anversa logo, "Sessie · Padel", club name, day, date and time, the players (initials in circles + first name), optional result, closing line "Na de koffie, de baan.", footer "maisonanversa.com · Antwerpen", house illustration in the background at low opacity.
- Founding Circle members: players who own a Heritage No.001 get their edition number in Antique Gold under their name (e.g. "No. 012") and a thin gold border around their circle.
- Privacy: by default initials + first name. A new member setting "Toon mijn voornaam op wedstrijdkaarten" (on by default); if switched off, only initials are shown. Never last names.
- Sharing: on mobile, the native share menu with the image file (so it can be posted directly as an Instagram Story); on desktop, download. Both formats available.
- Language: the card follows the language of the player who opens or downloads it (NL / EN / FR), including the date format.
- Access: the card is available on the session page for all players of that session, also in "Afgelopen sessies" (past sessions).
- Technical: generate the images server-side (e.g. HTML template rendered to PNG), using the brand fonts Baskervville and Montserrat and the official logo and house illustration files.
